Financial solutions for a profitable purchase

✓ **Deferred payment before delivery**

Advance payment from 30%. The remainder - before delivery without interest for financing. Minimal package of documents for financial verification.

✓ **Financial lease**

Down payment – from 30% of the value of the leased item
Rental period - from 6 to 12 months.

Payments - cumulative monthly payments calculated taking into account an annual discount rate.

✓ **Purchase of the used KOMATSU machinery (Trade-in)**

Our specialist will assess the technical condition of your machinery. Qualified assessment of the cost and technical condition. Prompt machinery purchase decision-making process.

We provide maintenance services in our certified Rebuild Center

Services:

- Repair of diesel engines of construction and mining equipment.
- Repair of transmissions (Gearbox and Hydraulic transformer).
- Machining process of basic engine parts (engine cylinder block, cylinder head, crankshaft, connecting rods).

Advantages:

- The resource of restored unit is not less than 80% of the new one.
- 6 to 12 months or 3000-6000 motor hours of guarantee on remanufactured components using original spare parts.
- Restoration is faster than ordering and shipping a new engine.

We provide maintenance services in our certified Rebuild Center

1500 m2 +

Rebuild area

300 +

Components and assemblies have been restored

15 machines +
